**15.10.2017**

## Micos products for each level of the fiber optic network

# Agenda

- ▶ Introduction
- ▶ Solution for family houses
- ▶ Solution for apartments buildings
- ▶ Solution for distribution points
- ▶ New underground chambers for FTTx
- ▶ Solution for central office
- ▶ Accessories & related activities

## MORE THAN

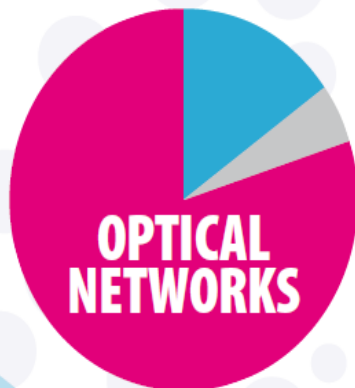

**25**

years history

**1200**

products

## PRODUCT PORTFOLIO

**80% Optical Networks**  
**15% Data Networks**  
**5% Metalic Networks**

## MANUFACTURING

**55% Custom Made Solutions**  
**25% Standard Product Alterations**  
**18% OEM Production**  
**2% Other production**

## NEW PRODUCT

**NEW**

**Every 4th Month New  
product launching**

- ▶ Know how
- ▶ OEM production
- ▶ Great references (Operators, EU projects, Africa)
- ▶ Member of FTTH Council (Europe & Africa), AngaShow, ISE expo USA
- ▶ Workshops, trainings
- ▶ Certification, declarations, test reports

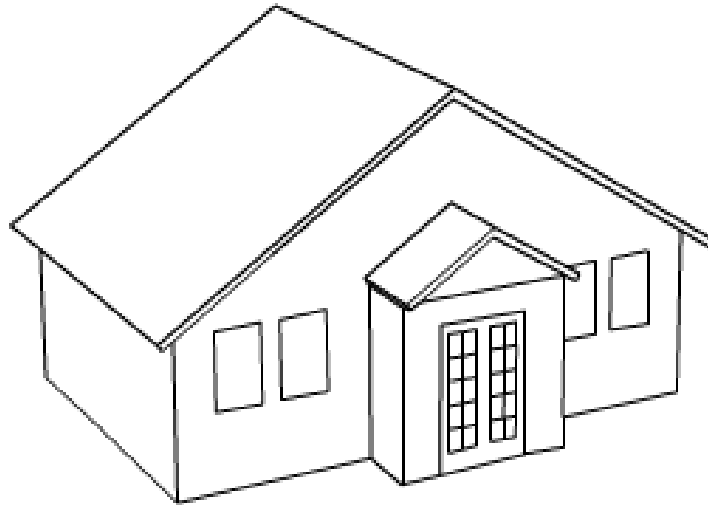

# Plastic or metal products

## Facilities – clean room for assembling

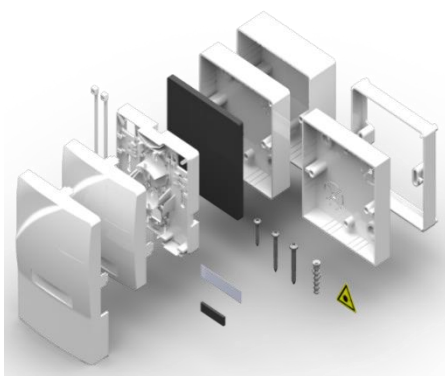

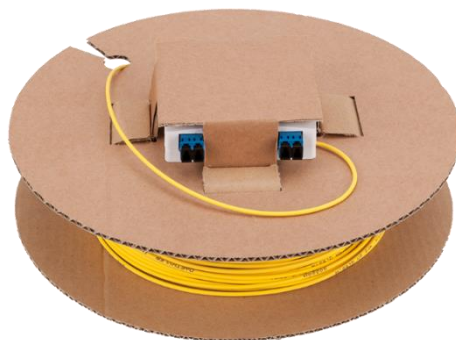

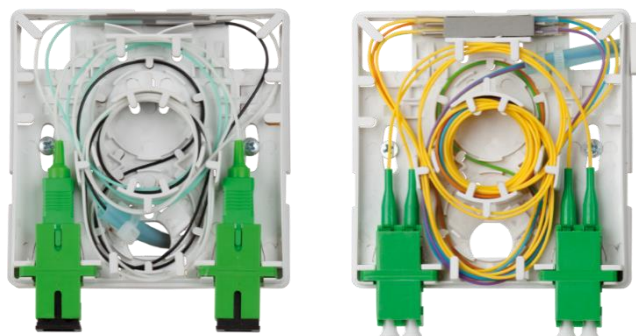

# Solutions for family house (FTTH)

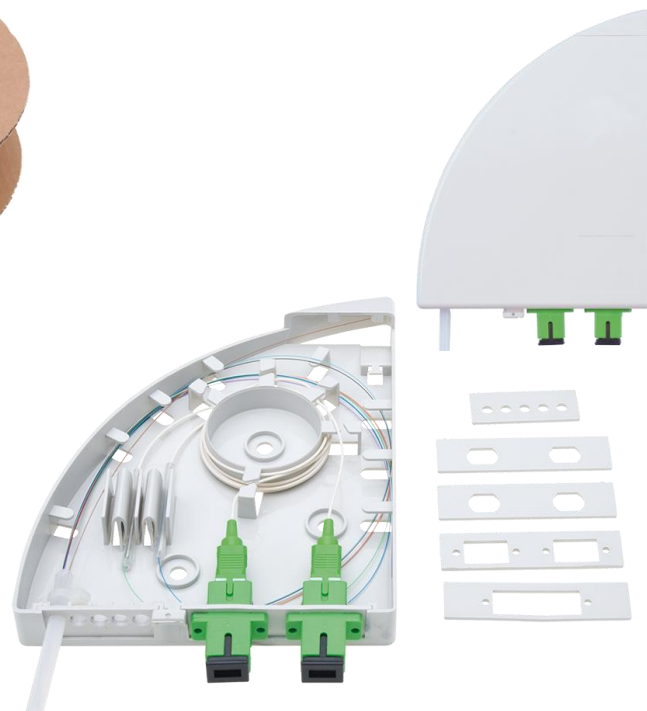

# Inside the apartment or family house

**ORM 1 FTTH mini socket**

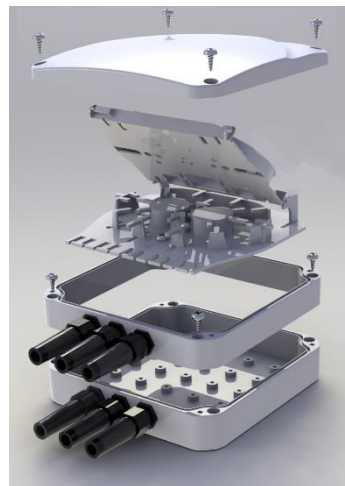

**ORM 2 FTTH mini socket**

# Outside the apartment or family house

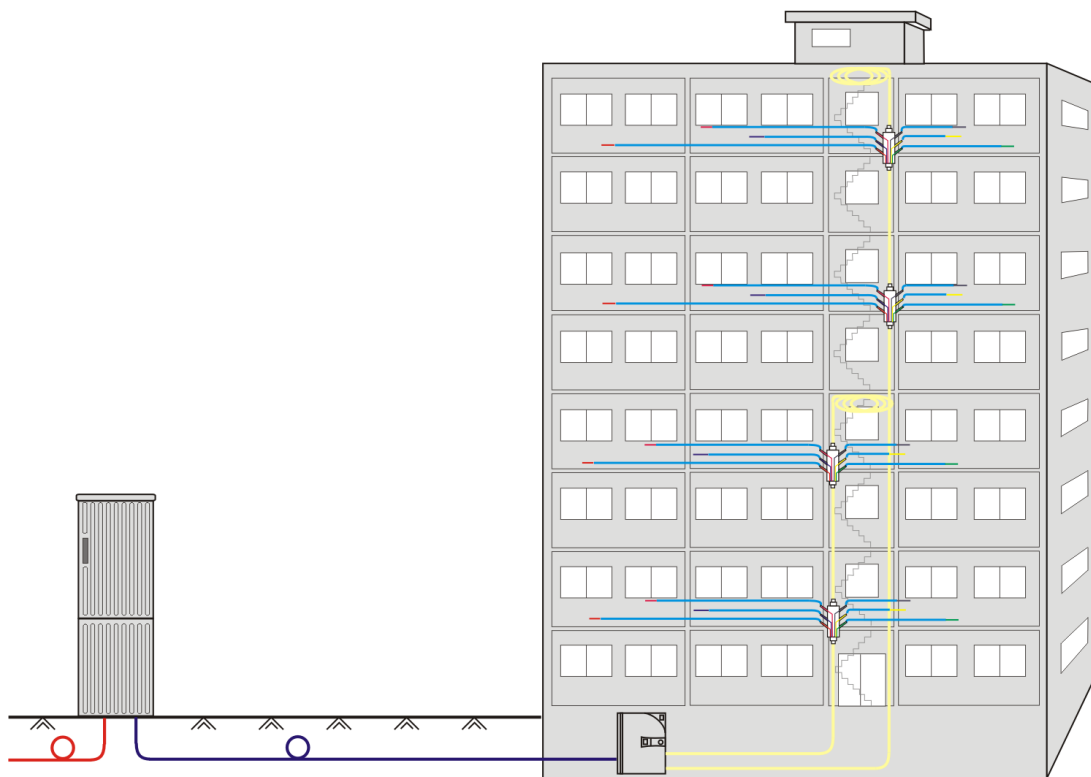

**ORM 3 line**

**ORM 5 wall box**

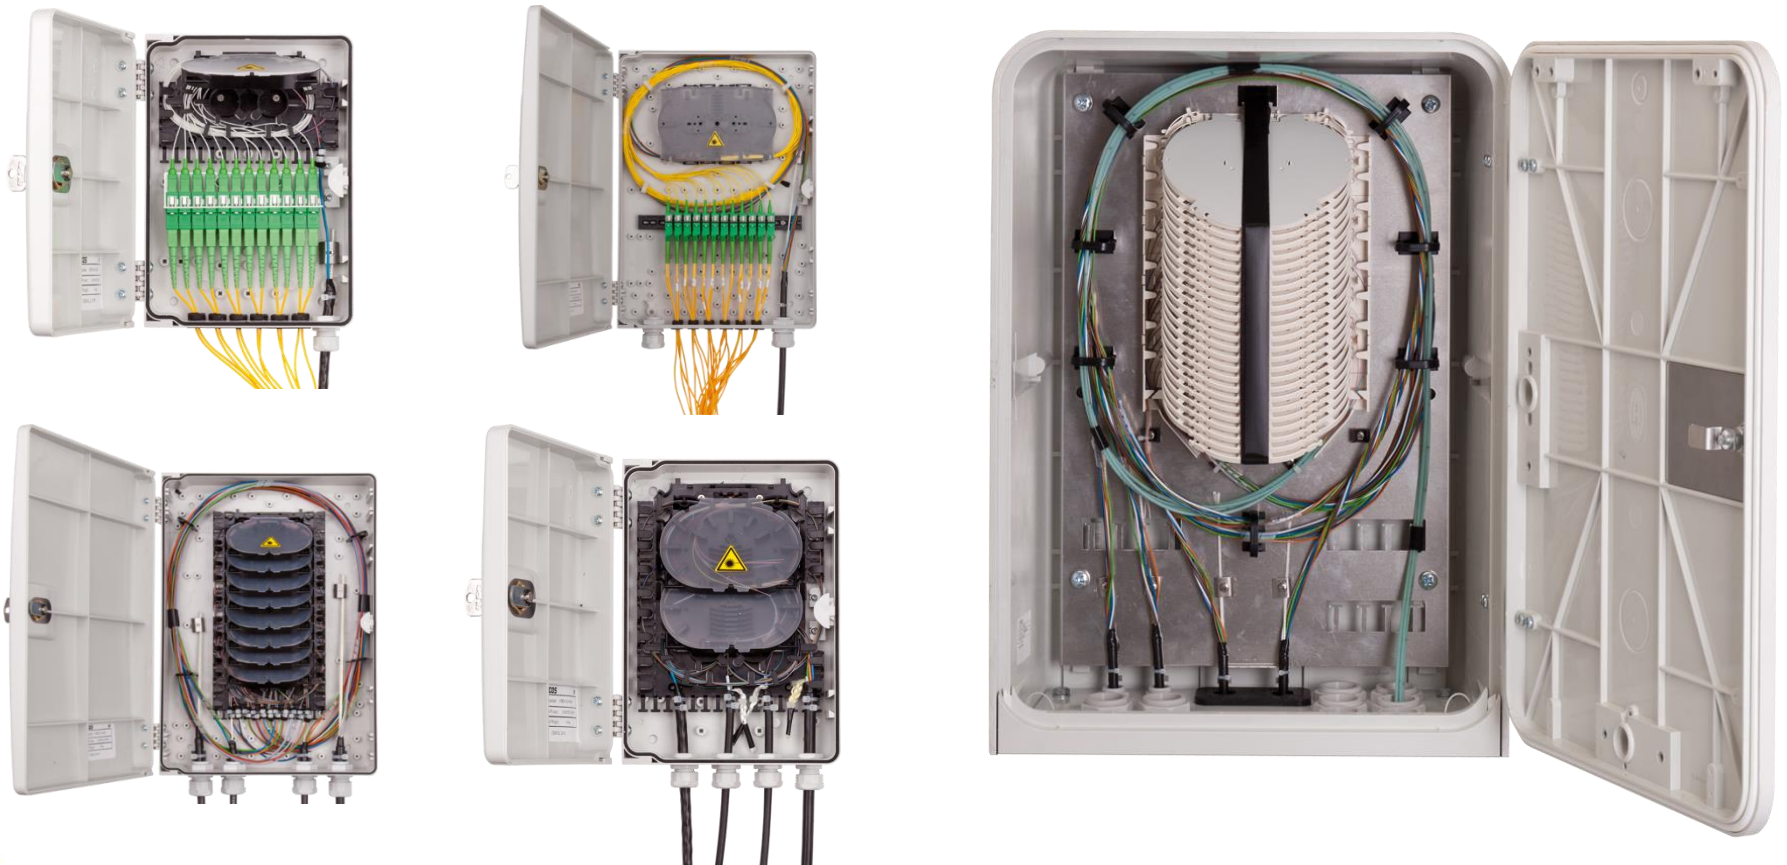

# Solution for building (FTTB)

# Basements or outdoors

URM Line outdoor/indoor for up to 48 connections or 288 splices

# Micos Legends

Distribution boxes can be easily modify into the street pillar

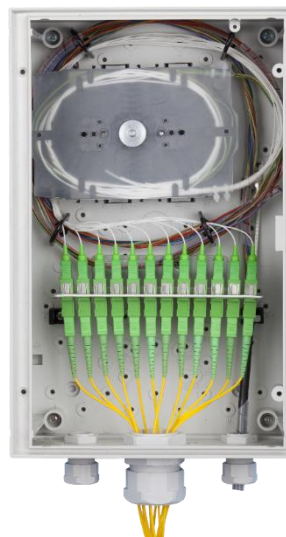

ORM 24 VS

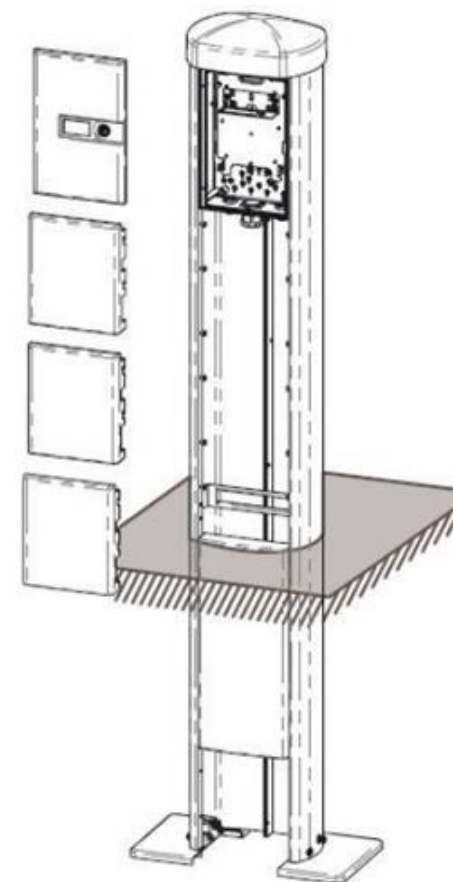

ORM 16 SDF

ORM 12 (24) L

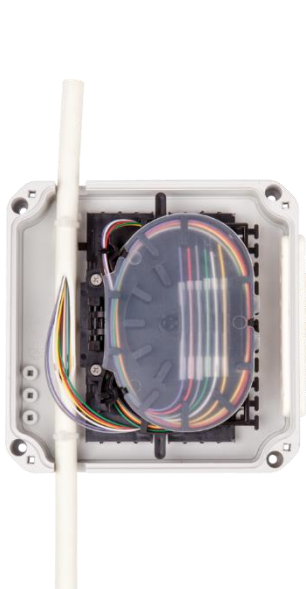

SNM 48

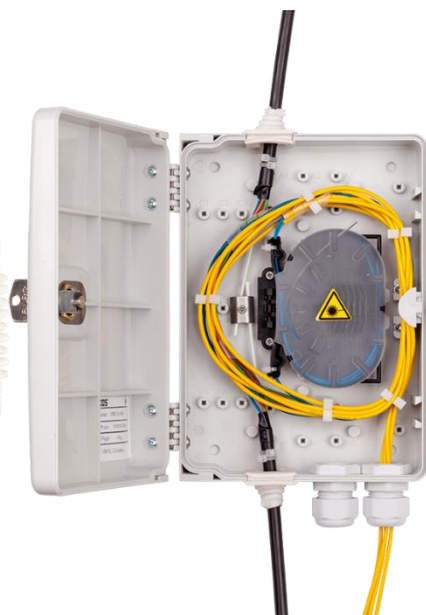

# Floor boxes (for connecting customers)

Distribution boxes can be easily modify on customer request

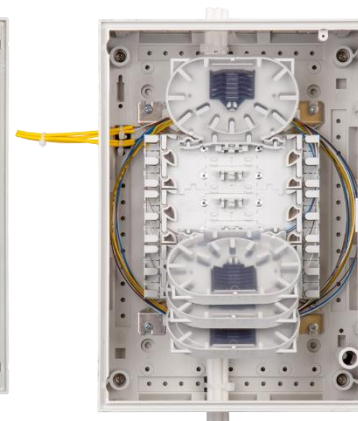

ORM 3 PK

URM SL 12S

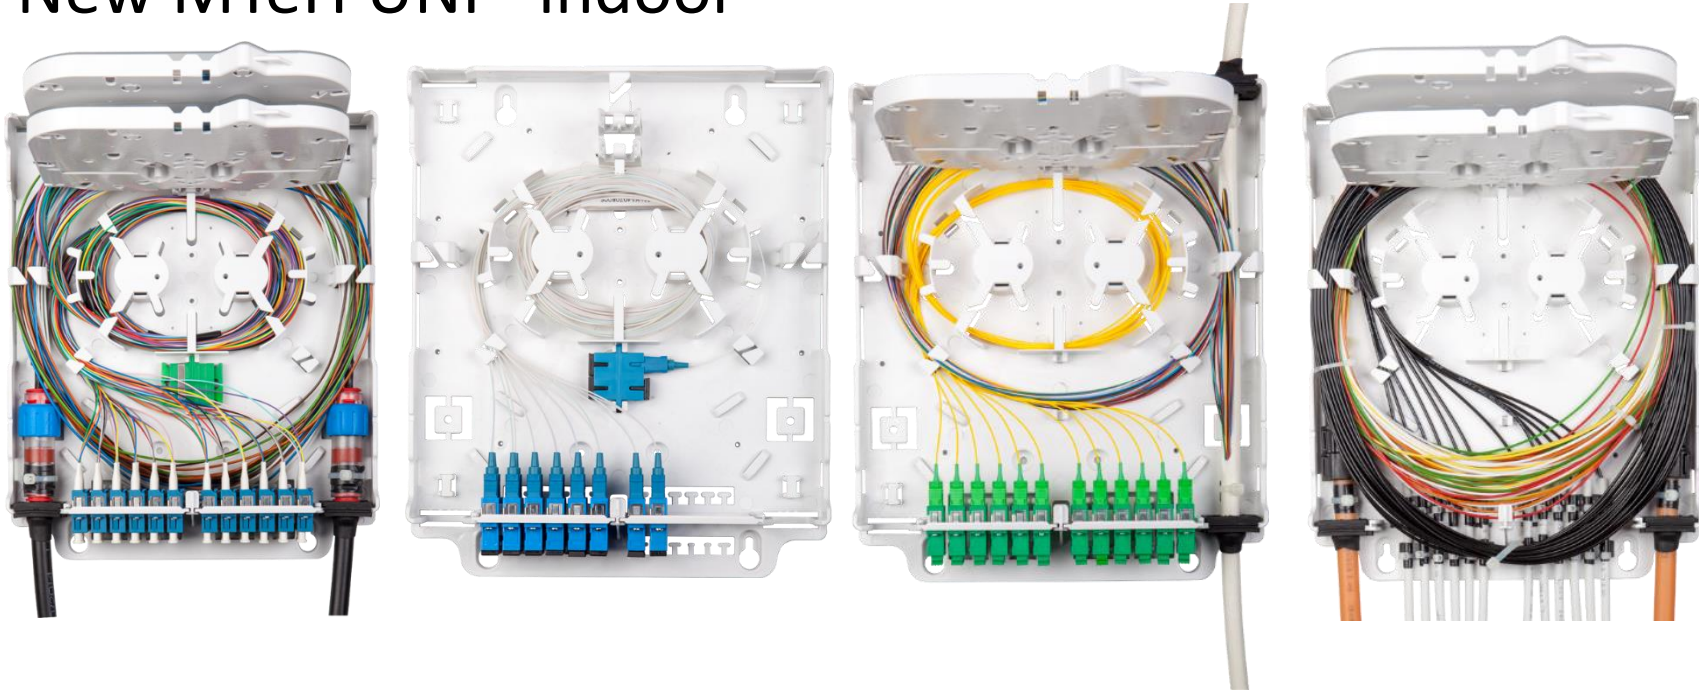

SOP 12 (24)

POR 12

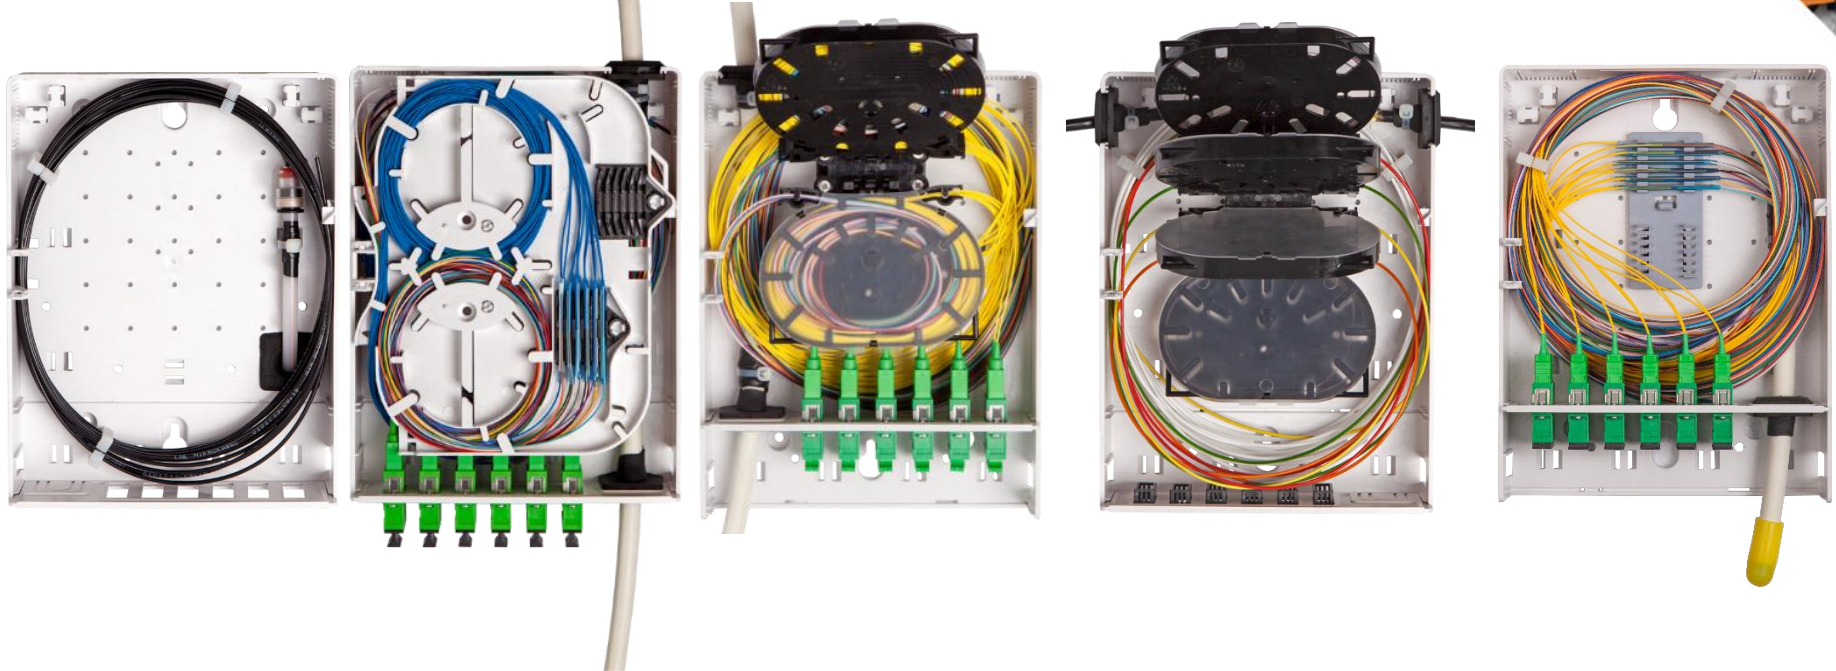

## New MTeH UNI - indoor

- ▶ Up to 48xLC or 24xSC connections
- ▶ Up to 72 splices
- ▶ PLC splitter possibility
- ▶ Multiple entries – in line

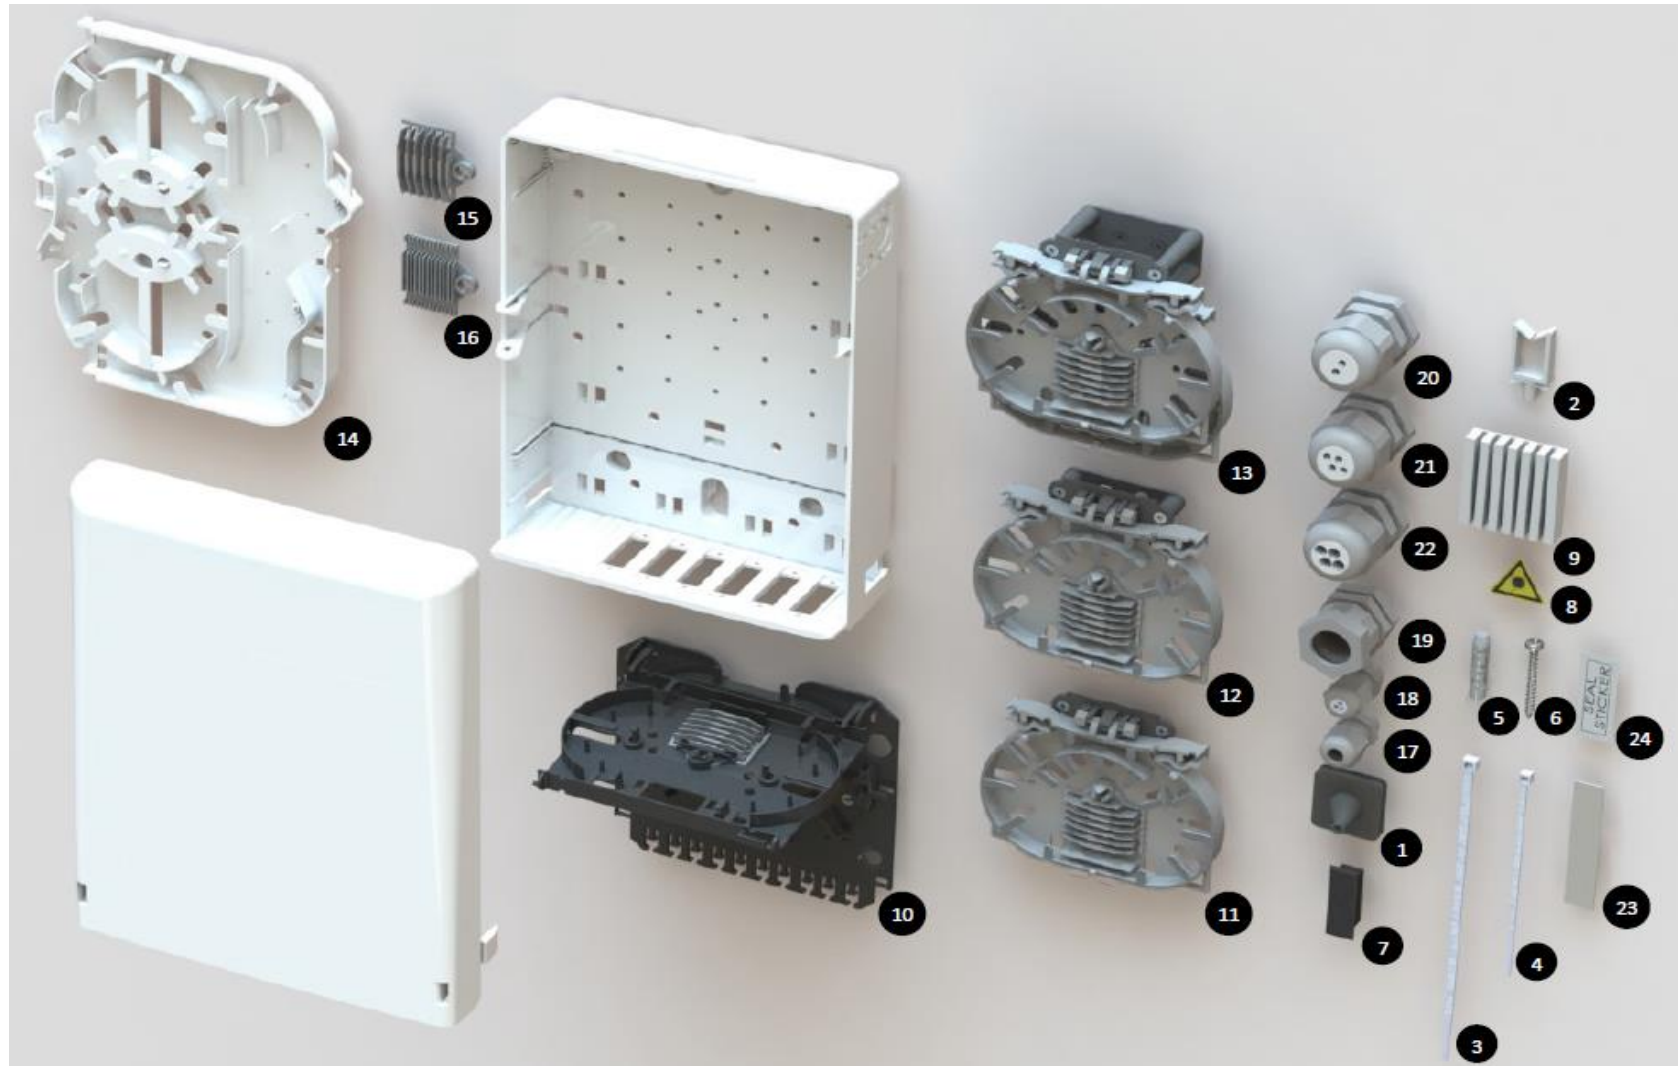

## NEW MTeH EASY - indoor

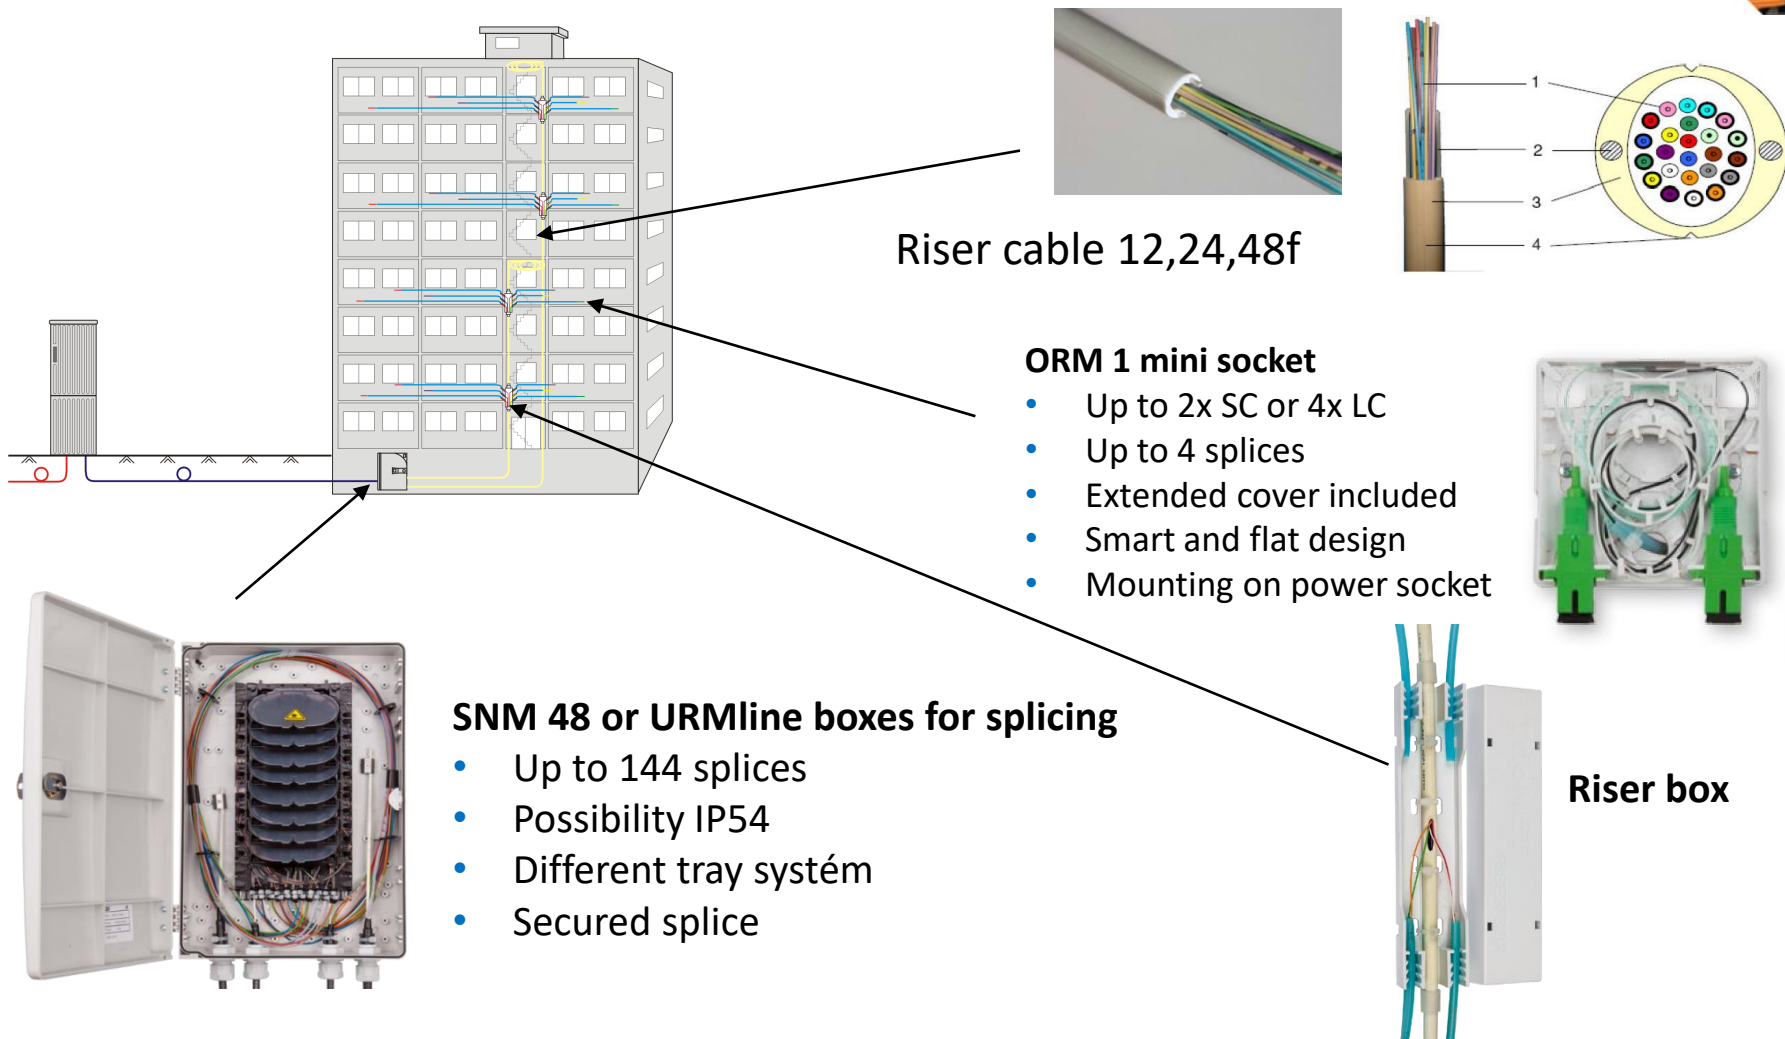

- ▶ One box-many applications
- ▶ Up to 24xLC or 12xSC connections
- ▶ Up to 48 splices
- ▶ PLC splitter possibility
- ▶ Multiple entries – in line

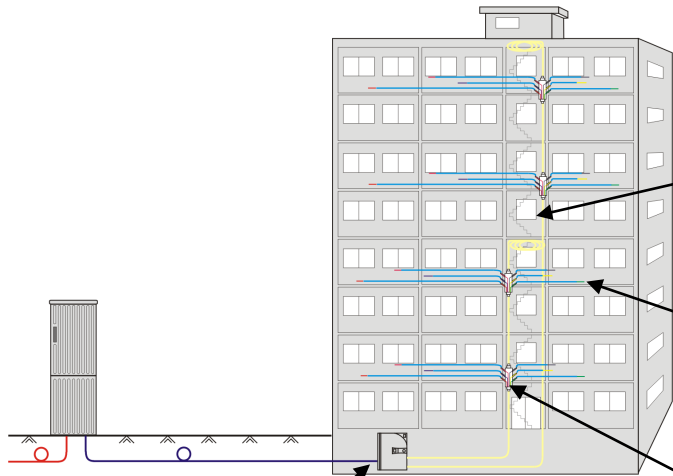

## NEW MTeH EASY - box accessorie

# Solution for building using riser cable

# New MTeH Solution for building

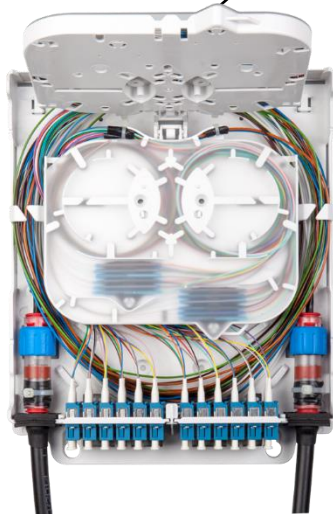

Indoor cable/microduct

## ORM 1 mini socket

- Up to 2x SC or 4x LC
- Up to 4 splices
- Extended cover included
- Smart and flat design
- Mounting on power socket

## New MTeH UNI

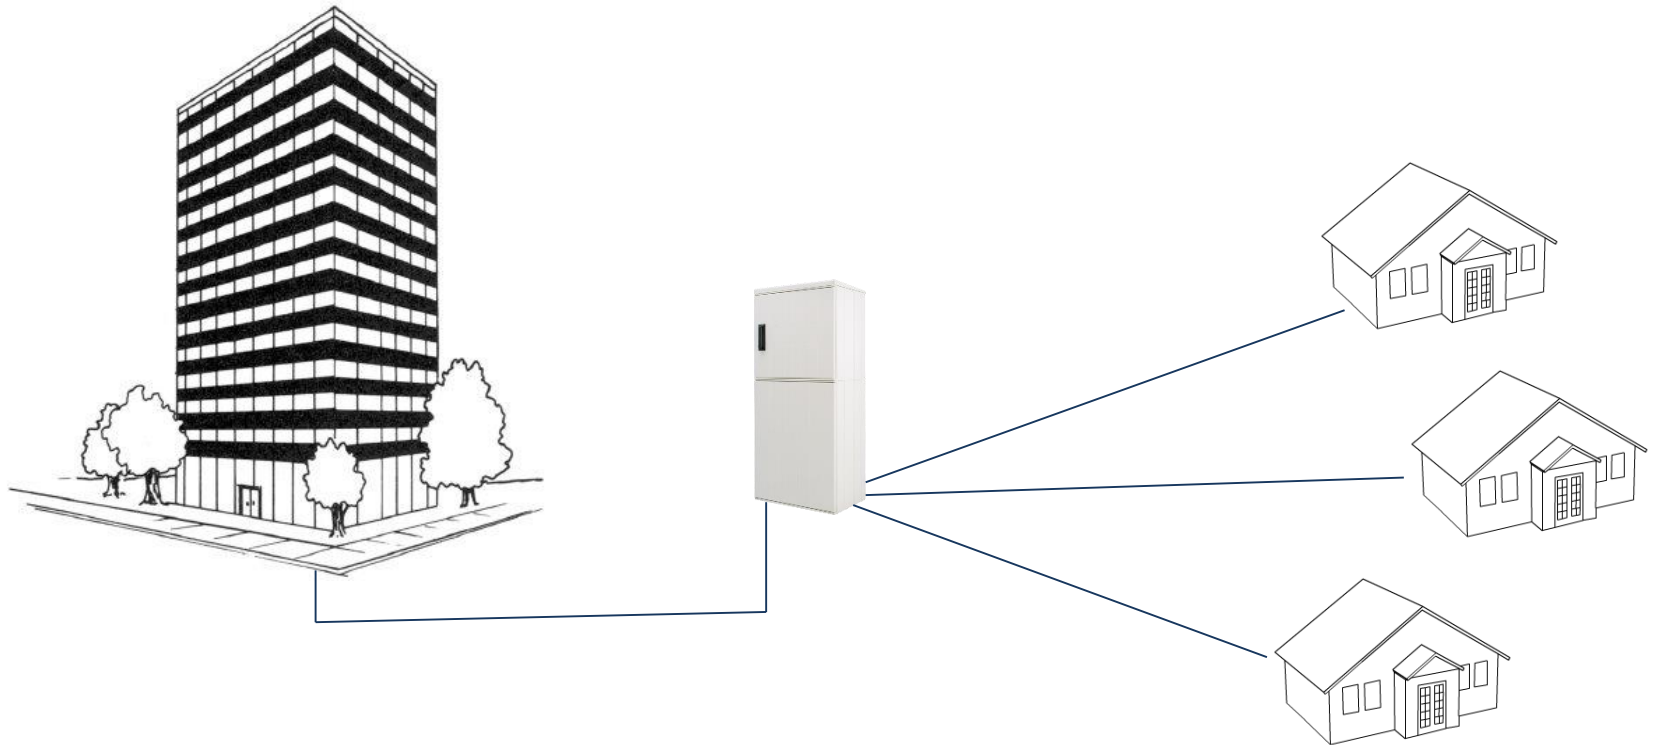

- Up to 48xLC connections or 24xSC connections
- Multiple entries
- Easy installation
- PLC splitter possibility
- Covered adapters

## New MTeH Easy

- Up to 24xLC connections or 12xSC connections
- Multiple entries
- Changable trays
- PLC splitter possibility
- Covered adapters

## Solutions for distribution points (FTTC)

# Overground products - pillars

SNM 48 SIS

SNM 72 VS SIS

SNM 144 VS SIS

# Around the World

## Pillar testing in Latvia

# Outdoor wall/pillar cabinets - splicing

## ORU 1/ ORU 1 SIS

- Capacity up to 144 splices

## ORU 2/ ORU 2 SIS

- Capacity up to 576 splices

## ORU 3/ ORU 3 SIS

- Capacity up to 864 splices

# Outdoor wall/pillar cabinets - patching

## ORU 5 SDF

- Capacity up to 432 splices

## ORU 8 SDF SIS

- Capacity up to 960 connectors

# Outdoor cabinets for 19" technology

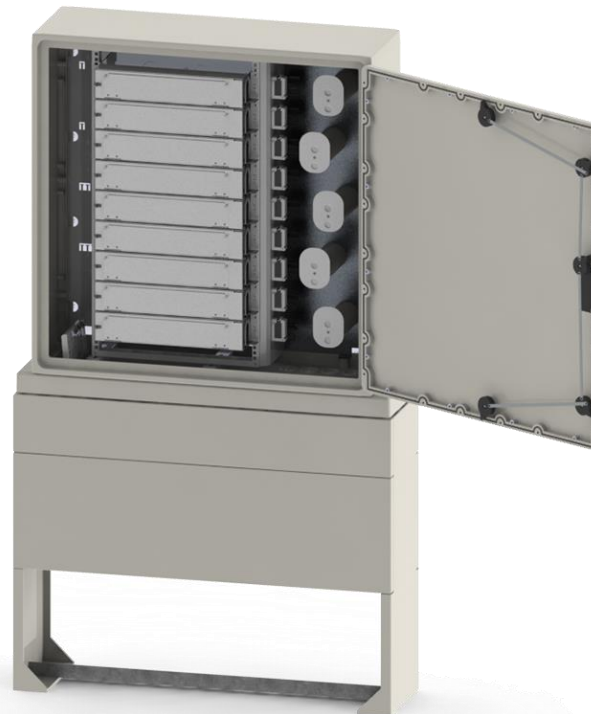

## HDC 480

- Height 14U
- Capacity up to 1008 connectors

## HDC 864

- Height 20U
- Capacity up to 1 440 connectors

## ORMPV 1U/2U

- Up to 144 connectors
- Hinged patch panel

# Special outdoor cabinets

## MSS 22U/55

- Height 22U
- 19" technology
- Thermal insulation

## ORU 1 MUC

- IP68
- ORU 1 box for 144 splices

## Wall mounted

- IP65
- Ventilated

## Underground solution - FTTH

### MUC 160

- Capacity 12 splices or 2 drops
- IP 54 or IP67

### MUC 250

- Capacity 24 splices or 4 drops
- IP 54 or IP67

# New underground chambers

## Underground solution – diving bell princip

### MUC 315B

- capacity 96 splices, 18x SC
- waterproof
- mid-span access
- Max. load 12,5't/m2 with optional lid

### MUC 425B

- capacity 192 splices, 18xSC
- Waterproof
- mid-span access
- Max. load 12,5't/m2 with optional lid

### MUC 600B-coming soon

- Capacity 384 splices
- Waterproof
- mid-span access
- Max. load 12,5't/m2 with optional lid

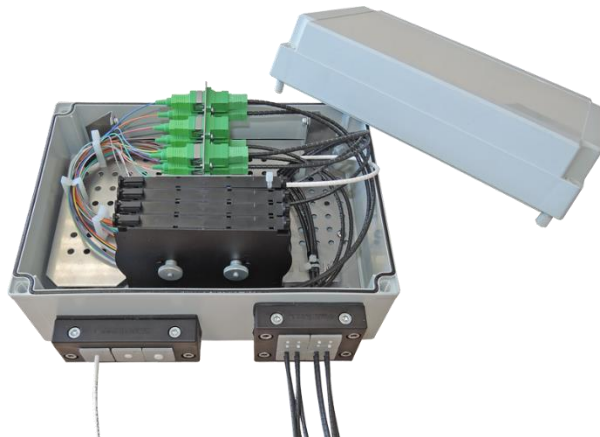

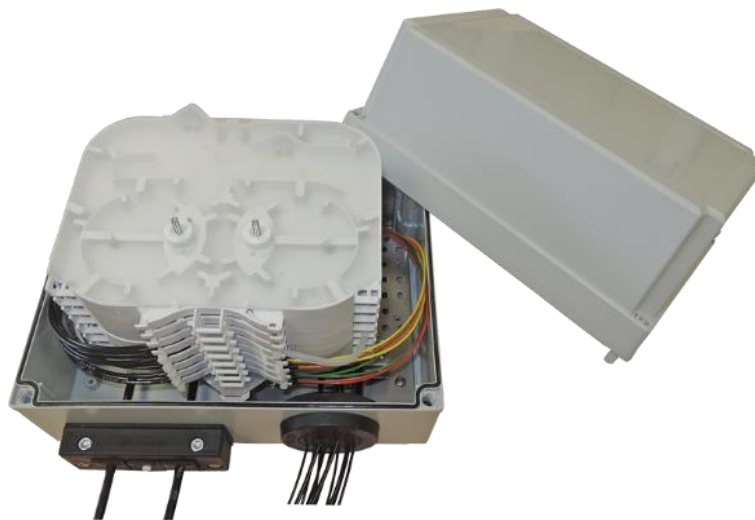

## Closures for MUC underground chambers

*F-box 96S*

*F-box 24S 18x SC*

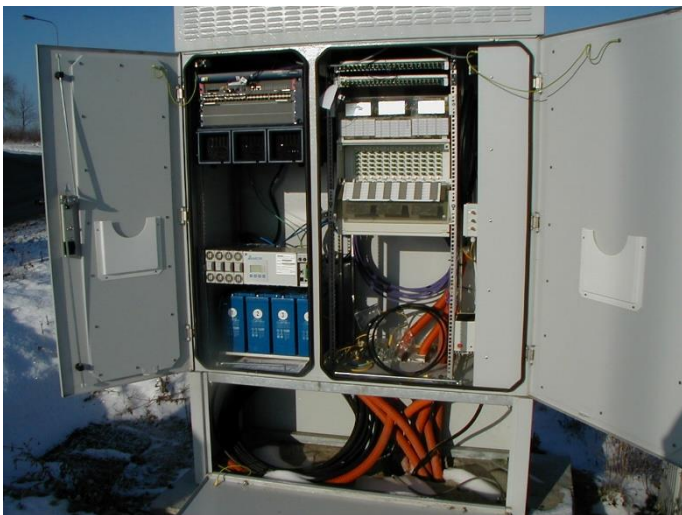

*F-box 144S*

*F-box 48S 24SC*

# Customer solutions

## Solution for central office

# Patch panels

## ORMP 1U/2U

- Capacity up to 96 connectors
- 19" – 21"

## ORMPM 3U/144

- Capacity up to 144 connectors
- 19" – 21"

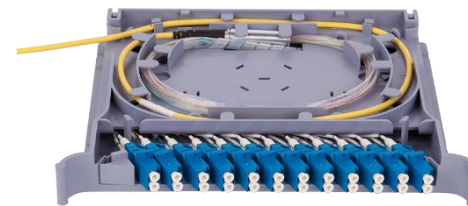

## ORMPV 1U/2U

- Capacity up to 96 connectors
- 19" – 21"
- Hinged system

## ORMS 4

- Capacity up to 144 connectors
- 19" – 21"
- Modular system

# High density cabinets

## ORS 1 300/600

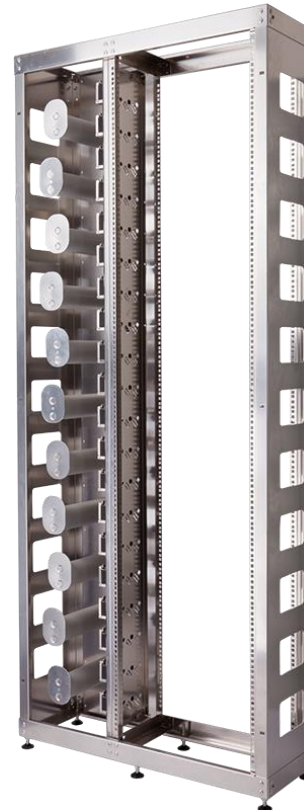

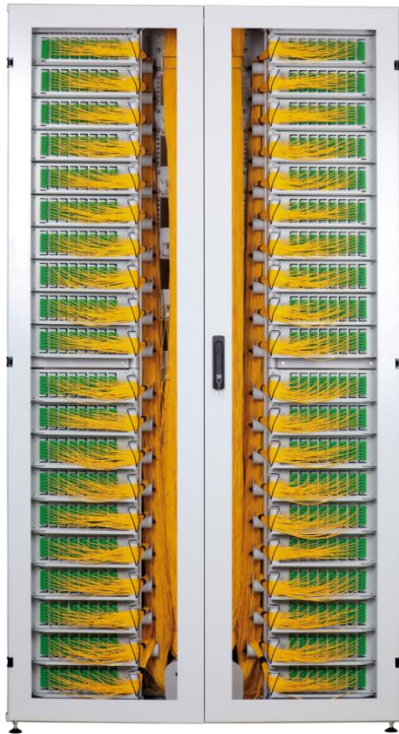

- Capacity up to 1920 connectors
- Rotating frame system

## ORS 2 300/600

- Capacity up to 960 connectors
- Rotating frame system

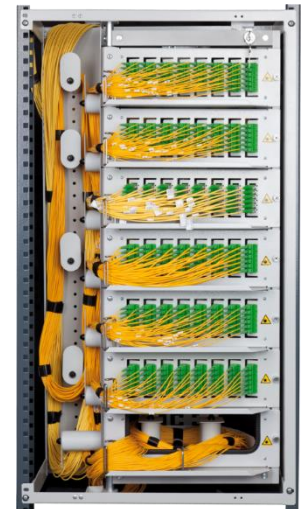

## ORSL AP 300/600

- Capacity up to 1920 connectors
- Rotating frame system
- For 19" ORMPV patch panels

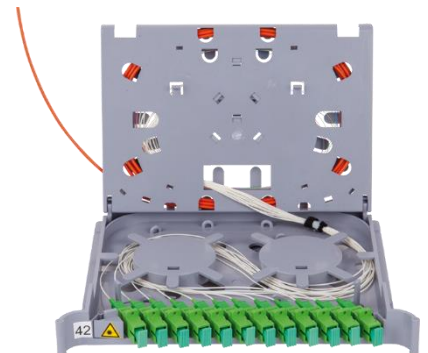

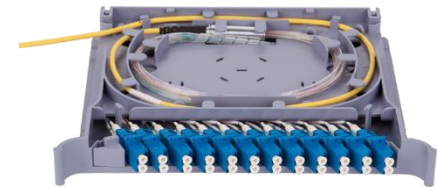

## ORS 3/600

- Capacity up to 288 connectors
- Rotating frame system
- Possibility mounting into 21"

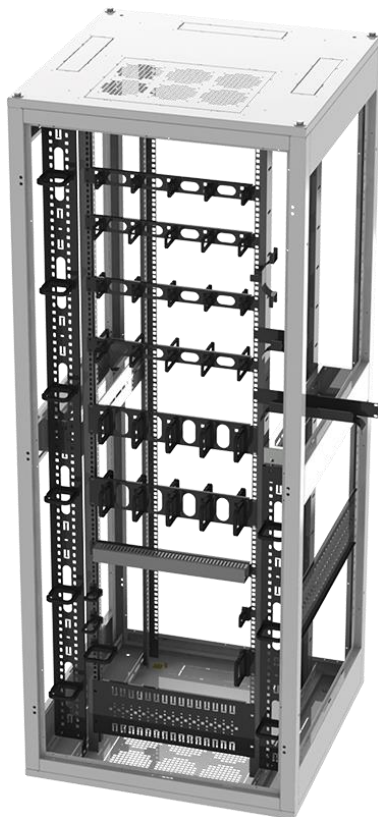

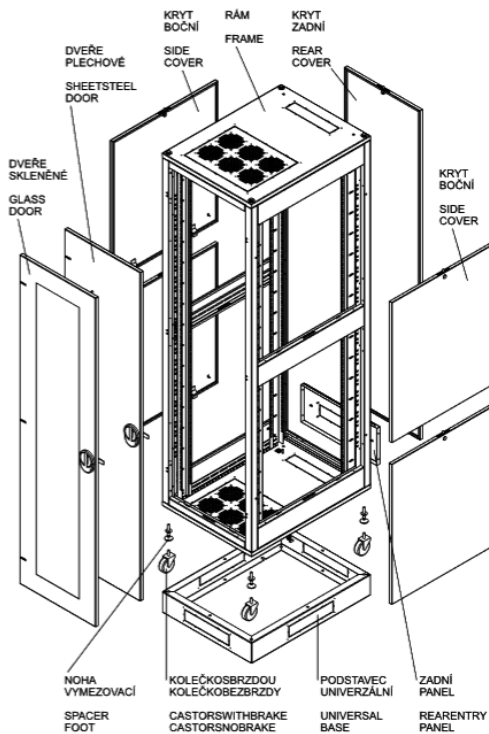

# High density cabinet ORSM 1/2

- Modular system
- Small footprint 600x300 or 900x300
- Capacity 72 modules
- 12xSC or 24xLC modules
- Capacity up to 1728 connectors

# Racks

- Any size of the rack
- Removable side covers
- Sliding side covers
- Accessories for rack

# ORM 3 FA façade solution

Outdoor box for facades, the in-line solution permits the passage of an outdoor rise cable that runs along the facade. Necessary fibers are pulled out of the cable, separate bushings for up to 11 drop cable entries.

- Maximum capacity 36 splices
- Possibility to place PLC splitter
- In-line solution for outdoor riser cable 10-13 mm
- Express port 2x 7-9 mm+ 9x 2-5 mm
- Coverage degree IP 54 to EN 60529
- Impact protection IK 10 to EN 50102
- Dimensions 136 x 136 x 46 mm

## ORM 3 FA façade solution

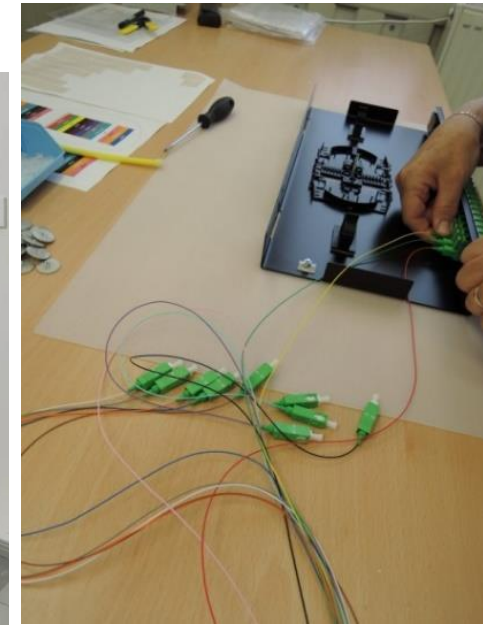

# Accessories

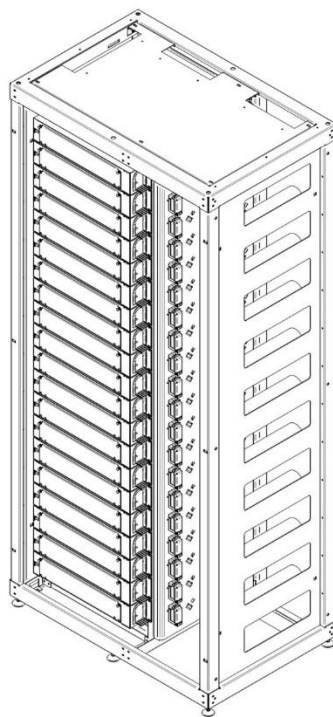

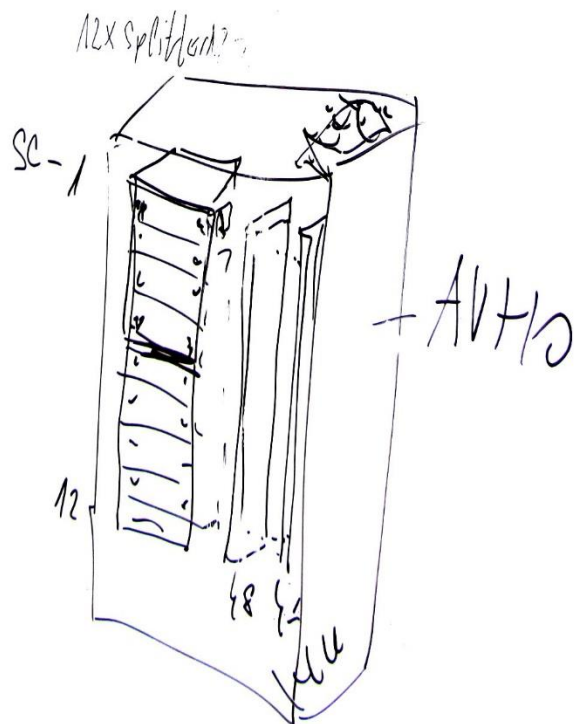

# Special activities

- Pre-installation (adapters, pigtails, splitters....)
- Quality check with inspection camera
- Vehicle charging stations
- EMC containers and transportation boxes
- Trainings

## From idea to real product

## Micos products for each level of the fiber optic network

# Thank you!
