Smart device enablement

Industry standard Operating systems
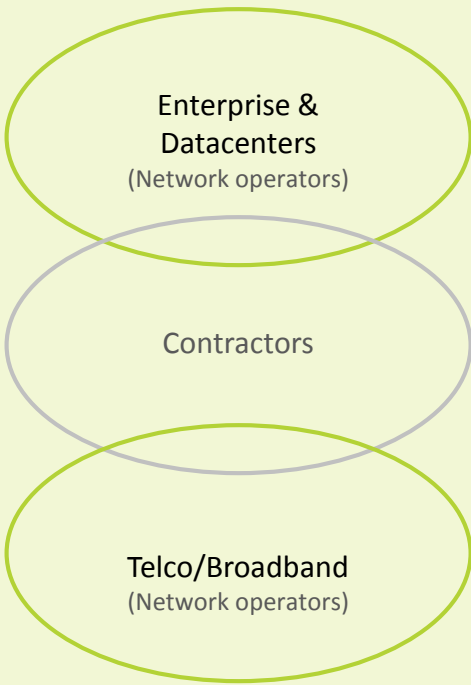

Cross platform modularity
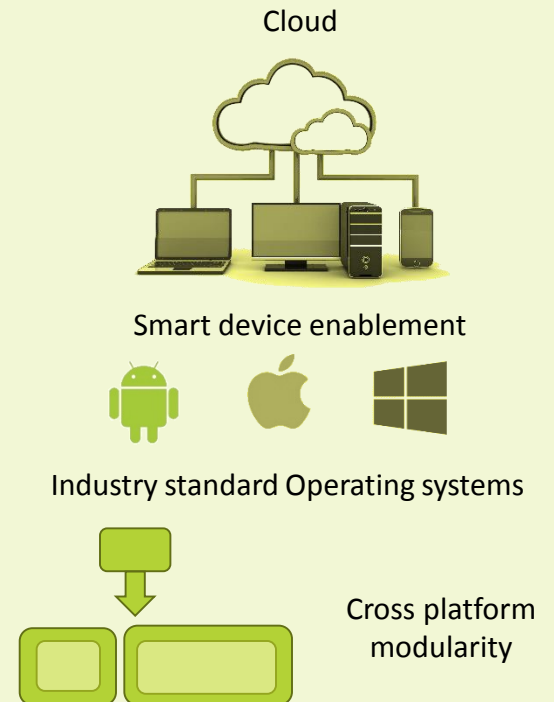

ROGUE Carrier

- Low cost platform
- Bluetooth and Wi-Fi connectivity for smart device enablement
- >8 hours Li-ion battery or AC power

ROGUE OLTS Test Apps

ROGUE OLTS Module

- Measures IL, ORL and Length
- Tests up to 2 fibers bi-directionally at multiple wavelengths
- Choice of Multimode and/or Singlemode models

- Integration with aeRos™ Workflow Management System
- Full Test Setup and configuration possible
- Animations to support referencing and test procedure
- Certification option adds industry standards compliance

Accessories

- MPO Switch 12F bidirectional test capability
- Fully automated fibre optic connector inspection FOCIS™

aeROS Workflow management system

- Cloud-Based Workflow Management System integrates with Rogue™ Test Apps
- Real-time, on-site test data validation and progress tracking
- Centralized test management & reporting
